

Our students and instructors' health and safety is top priority at NTDA. We all are having to make adjustments in our lives to protect our loved ones and ourselves from COVID-19. Please use integrity, we all go home to different situations and this virus affects some more than others.

-We are mask optional inside the building.

-DO NOT come to class if you are feeling unwell. (you may make this up in another class)

-DO NOT come to class if someone in your household has COVID-19. (follow the CDC guidelines and wait 14 days before returning) (once again, you may make up your missed classes in another class)
